2nd STEP:

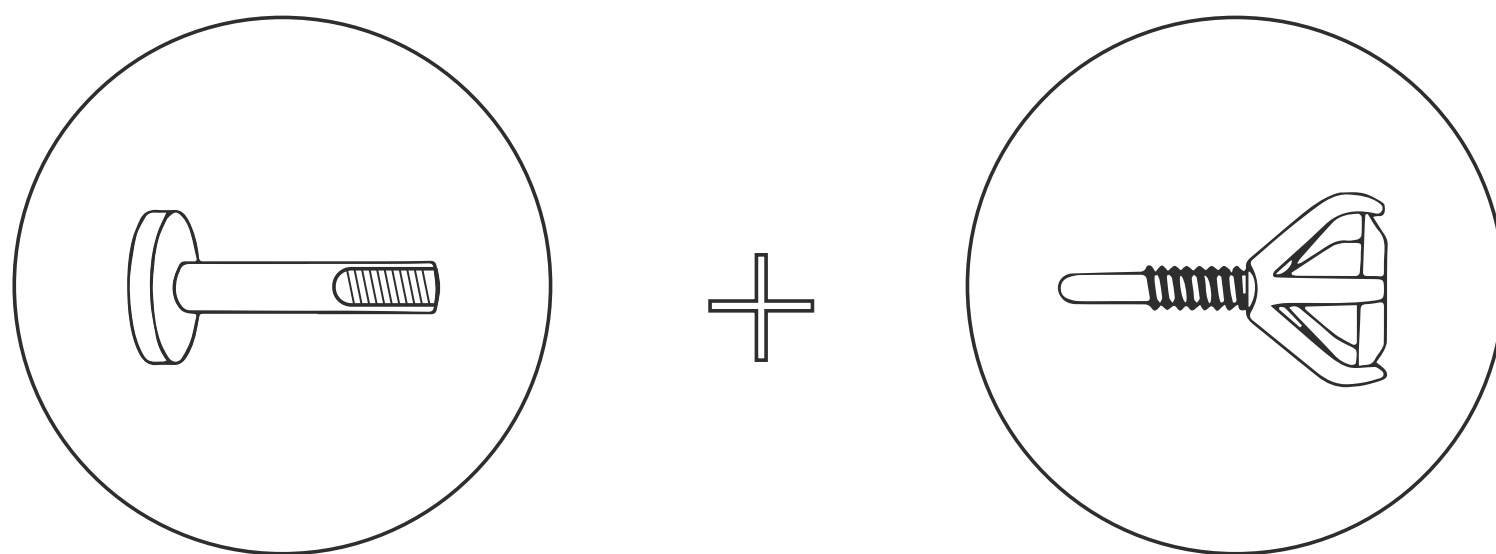

Choose your piercing jewelry.

For better & faster healing, we have curated our piercing jewelry to be only made of **Implant-Grade Titanium ASTM F-136, Solid Gold 14KT, and Solid Gold 18KT flatback posts and studs.**

These materials are considered the **best options for sensitive skin, with no nickel content.**

We do not & will never pierce using materials other than the ones mentioned above.

CHOOSE 1 FLATBACK + 1 STUD

One Flatback, Endless Possibilities

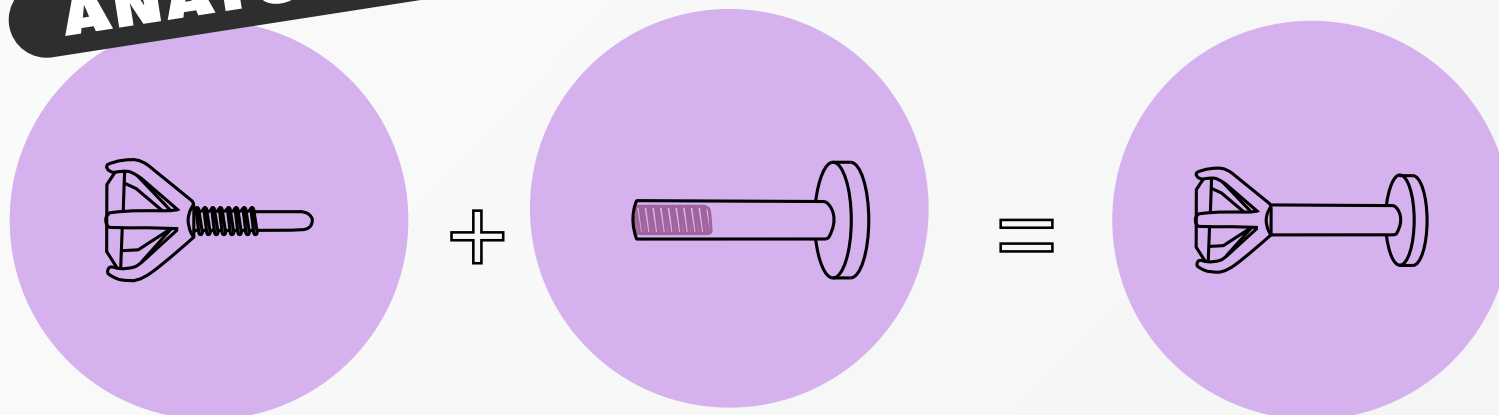

Flatback earrings are not recommended for children, we highly recommend Inverness Safety Back earrings. Consultations with our piercers are always available.

HOW TO WEAR

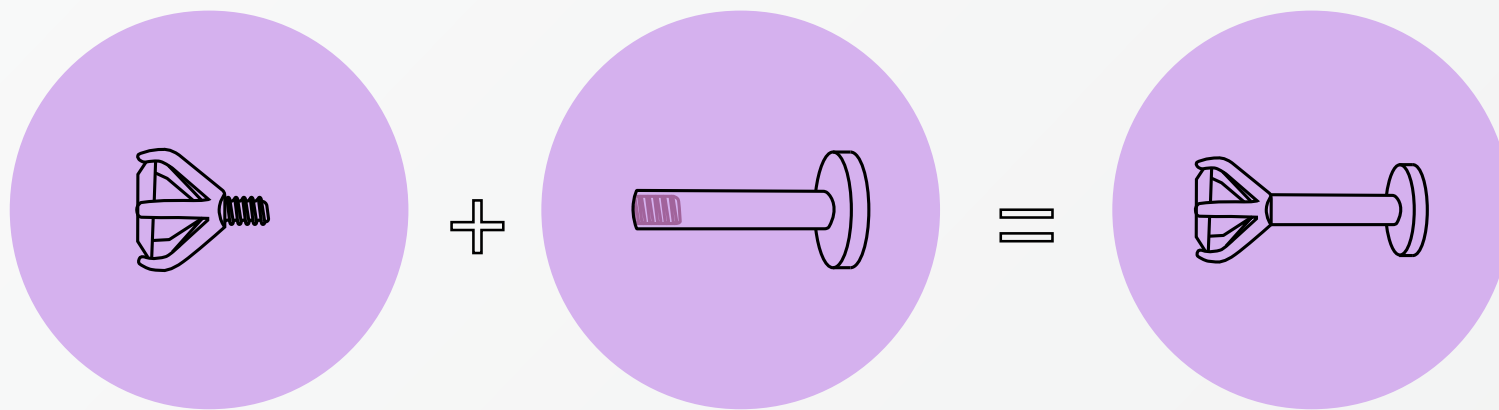

INTERNALLY THREADED FLATBACK EARRINGS

ANATOMY

LONGER
STUD THREAD POST
FOR ALL SOLID GOLD FLATBACKS

SHORTER
STUD THREAD POST
FOR ALL TITANIUM FLATBACKS

1. Insert the flatback post through the back of your piercing.

2. Once it's visible from the front, attach the front threaded earring onto the post's opening.

3. Turn the threaded end **clockwise** onto the post until it's securely fastened.

NOTE FROM OUR PIERCER:

PLEASE REMEMBER TO TIGHTEN THEM EVERY NOW & THEN

tiny comfort

A curated Titanium piercing earrings by Tindik.id that will be comfortable for daily & long-term wear! They are flat, small, light-weight with placement-specific designs.

Finally, earrings that work with your piercing — not against it.
